FIERCE CYCLONE SWEEPED OVER SEVERAL PROVINCES OF CUBA

Two Million Dollars Damage Was Caused In Havana and Pinar Del Rio

OFF THE COAST OF FLORIDA THE TEMPEST HAS DESTROYED SHIPPING AND AN ISLAND. WITH TWO HUNDRED AND FIFTY INHABITANTS HAS BEEN SUBMERGED—CITY OF HAVANA SUFFERED GREAT LOSS—TREES UPROOTED AND BUILDINGS WRECKED—LOSS OF LIFE IS CONSERVATIVELY PLACED AT TWELVE—TRANSPORT WAS BATTERED AND MANY HORSES LOST.

HAVANA, Oct. 19.—A cyclone of unprecedented severity, according to reports from the provinces of Havana and Pinar Del Rio, West, today night, and resulted in twenty deaths in this city and a serious injury of a dozen or more persons. The damage is estimated at fully \$2,000,000. The dead are: all Cubans of the poorer class.

The United States cruiser Brooklyn, which was in the harbor, was badly damaged and nearly all the trees in the city and suburbs were uprooted.

At Camp Columbia. The 200th American soldiers and marines at Camp Columbia here put to great inconvenience by the storm. Nearly all the 400 tents in camp were blown down, but there was little actual damage.

Transport's Experience. The chartered army transport Cuba, from Newport News, with horses and mules and a few teamsters, arrived here this afternoon after a terrific struggle with the gale off the Florida coast.

Damage in Havana City. In Havana city about fifty houses were more or less damaged. The buildings of the University of Havana sustained damage amounting to many thousands of dollars.

Trees Were Uprooted. The destruction of trees by the cyclone was a most remarkable feature. Throughout the length of the Prado scarcely one tree remained standing; they were nearly all uprooted.

At Pinar Del Rio. Reports received here from Pinar Del Rio city declare that the damage to buildings there was very great. The injury to the sugar crop is not serious.

Fishing Fleet Missing. It is believed now that a part of the Florida fishing and produce company's fleet was destroyed. Manager Adams sent out one of their boats this morning to look for the men and boats, and on their return they reported no signs of the fleet.

Island Engulfed. Captain Brand says he anchored on the lee side of Elliott's key, twenty-five miles south of Miami, yesterday morning, and that soon after a tidal wave engulfed the island. He says there were 250 residents on the island, all of whom were lost. The St. Francis was crushed by the same wave, and of the 100 passengers on board twenty-five were killed.

## LOWER COURT DAILY GRIND

### T. Bonner Faces Charge of Stealing a Rig.

Claims That He Wanted to Give Girls a Ride—Is Willing to Apologize.

"I didn't mean to pinch the rig, but was drinking and thought it would be fun to take some girls out for a spin. I'm sorry and am willing to apologize."

That was the explanation couched by Thomas Bonner, a laborer, charged with grand larceny in connection with the theft of a horse and buggy last Thursday night. He was arrested by a neat piece of detective work on the part of Sheriff Russell and Officer Gehring yesterday morning at 10 o'clock at the Cosmopolitan hotel. The outfit was found in the Dexter stable by Officer Russell, while Officer Gehring hunted up the thief on a clue furnished by the other policeman.

The horse and buggy belonged to D. W. Grey, who lives at No. 4204 A street. With a friend Mr. Grey went over to the Cosmopolitan hotel to see a man and while they turned their backs for a few minutes, Bonner jumped in and drove off. A man who saw him go described him as well as possible. It appears that the fellow unwisely came back to the Cosmopolitan hotel and took lodgings with a couple of girls. He was found there yesterday morning and charged with grand larceny. When apprehended he claimed that he had been drinking a little and only did it for a joke to give the girls a good time. He will find that something more than an apology will be needed to adjust his trouble as Judge Briggs held him to answer and fixed his bail at \$1000.

### Guilty, but Justified.

Although Harry Farrell was technically guilty of assaulting William J. White, who works in a working house several nights a week, enough was heard during the evidence to show that he was greatly provoked by being called an objectionable name and was insulted before, battering White. Farrell appeared to be a decent man with a good record. This fact, together with the provocation received, induced Judge Briggs to view the offense leniently. Farrell was released with deferred sentence, and will probably hear nothing more of the matter so long as he keeps out of trouble.

### Many Hoboes and One Drunk.

Eight tired men lined up to answer charges of vagrancy, and all evinced a sudden eagerness to go to work at once. All had the heavy old gag of looking for employment, and by their own accounts, were men of many sorrows in battling against continuous hard luck in getting steady employment.

John Spivey admitted being drunk on the previous day, but indignantly repudiated the stigma of vagrancy. "I took a drop too much yesterday, sure enough, judge," he explained, "but that don't make me a hobo. I want to sleep in the Lafayette saloon, but it's a dead end in default of \$2000 bail."

William Rogers is another man who was enjoying a fiesta on the preceding afternoon in the same locality. He said he liked work and wanted to go then and there to hunt up a job. His case will receive consideration.

M. Deutra explained that he came from Selma where no beer is, merely to get moistened up, and fully intended returning to his work for another spell of enforced sobriety. He was hauled out \$10 or ten days.

To break up the bosom, and apparently permitting companionship, of C. Levy and William Maxwell, two colored tramps, the court gave them ten and fifteen days respectively. The pair arrived from Bakerfield on Thursday and started on a campaign of absconding.

W. Seymour looked as though he had just emerged from a prolonged spree when he answered his name to a charge of vagrancy. He was floated out with thirty days.

Owen Owens could not bring himself to own up that he was a vagrant. After some deliberation and hearing what really constituted vagrancy in the critical eyes of the law, he concluded to plead not guilty. Bail was fixed at \$200.

The same thing happened to Edward McGinnis. He claimed that he was about to start for Crane valley to work on a good job and would not plead guilty.

John Smith, another weary, managed to get enough beer to keep him drunk during the three days he has been in Fresno, but was not equal to the effort of looking for work. He was floated out of town.

K. Aki, a little Jap, who was arrested on Thursday night, admitted being drunk and was fined \$10.

### EX-SENATOR BURTON READY FOR SENTENCE

His Wife Will Reside at the Scene of His 'Six Months' Imprisonment.

ARLINGTON, Kan., Oct. 19.—Joseph Ralph Burton, former United States senator from Kansas, will begin serving his six months' sentence at Iron, Mo., on Monday next. He will be accompanied to Iron by Mrs. Burton, who will remain in that town until her husband's release.

Burton, at his home here this afternoon, received a telegram from F. H. Lehmann, his attorney at St. Louis, announcing that the latter had made arrangements for the ex-senator to be in court in that city on Monday morning next, when the mandate of the United States Supreme court upon his sentence will be formally presented and Burton given into the charge of the court officials.

### MRS. DOWNING'S VISIT A BIG SUCCESS.

Important Announcement to the Ladies of Fresno.

Mrs. E. Downing desires to express her thanks for the large patronage afforded her during her stay in Fresno. Today she will exhibit some new and beautiful effects that arrived last evening, and which she is confident will greatly interest her patrons. As this is the last day of her visit, she hopes her intending patrons will call early, as she expects to leave the entire line of millinery during today.

## Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish form after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

## SAND STORM STOPS GAME

Seals Win Game In Clouds of Dust.

Raisin Eaters Unable To Find Many of Brown's Curves —Hoag Hit Freely.

What few spectators braved the storm to attend the ball game at Recreation park yesterday didn't have the courage to stick it out, for the sand blow over the field in great clouds, filling the eyes of the players and umpire, and finally piling up in the stands, almost forcing the spectators to leave. The game itself was hard to watch and hard to play on this account.

Brown was on the firing line for the Seals and was in good form. He was found for only three hits, only one of which allowed a man to cross the dish. Hoag was hit freely and had it not been for good support, even in the face of the storm, the Seals might have scored more than the four men that they sent across the platter.

Fresno scored her only run in the fifth inning. Walters got a Texas leaguer back of second and McLaughlin hit to the center of the diamond. Brown attempted to make a double by throwing the ball to second and threw wild, and Walters made third and McLaughlin second before the hide was recovered. Hoag got a high fly to the right garden and Walters was across the rubber before the ball could be returned to the diamond.

The Seals got one of their runs in the first inning. Spencer got a two-bagger to right field and Wheeler sacrificed him to third. He scored on Mohler's long fly to center.

Three hits were responsible for three runs by the Seals in the third inning. Wheeler was issued the free pass to the initial sack. Mohler clouted the ball to right for a two-bagger and Wheeler scored. Hildebrand got a single to left and Mohler scored. Hildebrand stole second and scored on Brown's single to left.

The game was called at the end of the seventh inning on account of the sand-storm. The score:

This is the day of the big benefit baseball game that is to be played for the benefit of the entertainment fund of the coming convention of the State Teachers' association. Mike Fisher says that he has arranged with the weather man and Mayor Lyon for a clear sky and that there will be no wind.

The game will be called promptly at 3 o'clock and provision will be made for the crowd that will attend. All school funds have been selling tickets for today's contest and the advance sales indicate a record-breaking crowd. McGregor will be on the firing line for the Raisin Eaters. Mac is in fine form. He has a swift rebound that is invaluable when it comes over the plate and Bull Perrine has announced that he will get a telephone for tomorrow's game.

"Purdy" Welch will dish them up for the Seals and will also expect over some curious ones. Purdy Wilson has consented to come off the bench and work behind the bat as a sort of special complement to the occasion and Happy Hogan will paw the earth behind the dish for Fresno.

**Diamond Gossip.**

No word has been heard from Griffiths as yet regarding the disposition of Jimmy Whalen. Meanwhile, Jimmie is in uniform every day getting his fix in better shape than ever. When the negotiations for his use are completed he will have something that will set Portland guessing.

There will be only one game Sunday. Mike has given up the quest for pitchers in the bushes around Temore and will be able to have only one contest. That will be worth two, however, for Harry Walters is to lead for the Raisin Eaters. The game will be called at 2:30.

AT LOS ANGELES—Portland took today's game from Los Angeles, 5 to 4, by outplaying the locals, who would have been on the score board less frequently if the Webfoot had been more chary of their errors. Blashear figured in two fast double plays. In the second inning, Manager McGeeble of the Portlanders was put out of the grounds for abusive conduct incidental to a disputed decision. Score:

## BUNKO MEN WILL FIGHT

Declare Their Innocence and Retain Attorneys.

Williams Says He Formerly Ran a Saloon In Berkeley —Bold Burglary.

HANFORD, Oct. 19.—The two confidence men, W. H. Williams and J. C. Harris, who on last Wednesday cleverly swindled Mike Dutra out of \$5000, were landed in the Kings county jail last night. As soon as Mr. Dutra has recovered sufficiently to come to Hanford, proceedings will be commenced against them. Williams, who claims that he is innocent, is 72 years of age and says that he is married and resides in Berkeley, where he was formerly proprietor of a saloon. He has retained Attorney John Covett to defend him. Harris will also employ counsel, and asserts that he will fight the case to the bitter end.

The apartments of Mr. and Mrs. Tony Angelo, who are rooming at the United States building house in this city, were burglarized shortly after noon today. The booty secured being two watches and several trinkets of more or less value. The thief, who was also a transient coming out of the establishment, was seen coming out of the Angelos' room by Mrs. A. Flores, wife of the proprietor, and without answering that lady's questions, he brushed by her and went into his own room, closing the door after him. Mrs. Flores planned a guard at the door and at once notified Constable Goodrich. Upon the arrival of that officer, the guarded door was opened and, somewhat to the surprise of all, the inmate had made his escape in a manner yet to be explained.

The officer was given a good description of the man and shortly afterward he arrested the fellow on the street near Chinatown. The thief, who in the meantime had disposed of the stolen plunder, said that his name was Manuel Manfana and he had recently come to Hanford from Berkeley. He maintains that he is innocent of the crime charged against him.

Miss Anna Yule, a native of Wisconsin, died today at the home of her brother, J. B. Yule, near Genesee. Deceased was 64 years of age and came to this country from Sumner, Wisconsin, Wisconsin, about a year ago. The funeral services will be held at the residence of J. B. Yule tomorrow. Interment in the Hanford cemetery.

While skating at the new rink last evening, Homer Hays, bookkeeper at the First National bank, fell and broke his left arm.

Dr. and W. B. Charles and wife and W. C. Fisher attended the wedding of the latter's niece, Miss Ida May Rodman, and W. T. Winne in Fresno last evening.

## BLACK DIAMOND HAD EARLY MORNING FIRE

Damage Estimated At \$40,000 and Cause Believed To Have Been Incendiary.

STOCKTON, Oct. 19.—Black Diamond, a small town about forty miles west of Stockton, was visited by a fire about 2 o'clock this morning, resulting in the destruction of thirteen dwellings, the hotel Lasencada, two saloons and a grocery store, containing a loss of about \$10,000, with partial insurance in each case. It is thought the fire was deliberately set. The town has no fire department of its own, but the department of the Redwood Manufacturing company, owned by the owner, George Clough, was quite badly burned before he was rescued by a ladder from his room in the hotel. The town is on the Santa Fe between Antioch and San Francisco.

**Man and Wife Tried Suicide.**

LOS ANGELES, Oct. 19.—W. R. Warner, 60 years of age, and his wife, aged 50, were brought to the county hospital today from Ventura county, charged with having attempted suicide with chloroform. They will be tried before a jury commission tomorrow.

His health and resultant financial difficulties are alleged to be the cause of their troubles.

**Idaho and Wyoming Shaken.**

## CREDIT CURRENCY

The meeting of the Bankers' Association in St. Louis has got itself into a violent and by no means conclusive discussion of the question of a proper form of credit currency to supply the fiscal system of the United States with much needed elasticity. It is a question where doctors disagree and nobody is in a position to decide. Nevertheless, it should be remembered that the differences are on matters of detail and not on the essential principle. Probably the financial thought of the world is unanimous in the opinion that the currency of the United States needs greater elasticity and that the way to give it that elasticity is to permit the banks to issue some form of interchangeable paper credits which can do for the moving of the crops and the payment of daily wages what bank checks and clearing houses already do for many other transactions of business. The crops of the United States after they have passed from the hands of the farmer to those of the buyer are moved with the use of very little cash money. Shiploads of grain are bought and sold on the mere nod of the head, and even the margins of individual transactions are not paid in cash. The banks first balance the balances of all their customers against each other and then the clearing house balances the balances of all the banks against each other. Only the final residuum is paid in cash. The theoretically perfect system might find some way to meet even that last problem, but it is of no practical importance since there will always be more than enough cash available to pay clearing house balances.

There will also be cash enough to transact the ordinary small transactions of retail trade. There is, in fact, cash enough for all the business there is in which the modern mechanism of credit is fully utilized. There is nothing in the nature of things to prevent the utilization of this credit in the moving of the crops, except the fact that the persons engaged in his transaction are not equipped with familiarity with banks and banking methods and each other's credit to use the ordinary facilities of bank checks and clearing houses. Their business must be done with cash or with something as easy and as safe to use as cash. If something could be issued by the banks which would be in substance a certified check, but in appearance and use a paper bill guaranteed by the United States government, the whole problem would be solved. The difficulty is to provide some method of issuing the currency so that it may safely be guaranteed by the United States while charging the entire expenses of that guarantee to the banks, and also so that it may not be justly chargeable with being a special privilege granted to the banks which ought to belong to the government. Probably the principal difficulty is in making the people understand and accept the system after the experts have worked it out.

## BAD YEAR FOR REBATERS

The attorney for the New York Central just convicted and fined \$108,000 for rebating says, "It is impossible to defend rebate cases in the present state of public sentiment." This is a healthy sign. It is possible to defend rebate cases in any state of public sentiment if you have not rebated, but if you have rebated and covered up the nature of the transaction with some technical quibble of the law, this is a bad year to try to fool any jury into thinking that rebating is not rebating. The jury system is intended to give public opinion its due weight in the adjudication of cases. Public opinion is no concern of the judge. His obligation is to the abstract law, whether it is good or bad, popular or unpopular. The obligation of the jury is also to the evidence presented in that case. The juror who finds a verdict on any facts except those presented in the evidence is violating his oath and his duty, but nevertheless some laws are enforced very stringently at certain times and very leniently at other times by juries hearing exactly similar evidence. This is sometimes due to temporary waves of popular opinion which juries ought not to regard, but is sometimes due to permanent tendencies of popular policy which it is the duty of juries to regard.

The conviction of the Standard Oil company in Findlay, Ohio, yesterday, under charges brought under the anti-trust law, is doubtless another example of the just force of popular opinion working on juries. There is not and never was any doubt that the Standard Oil company and its subsidiary corporations, in a combination in restraint of trade, but there is always considerable doubt whether any particular case presented to a court can be proved with sufficient precision to justify a verdict. Quibbling lawyers can nearly always confuse the minds of a jury, and if in this case the force of popular opinion has served to clarify the minds of the jury as against these confusing efforts, the verdict is not properly a prejudiced one, but rather the only really unprejudiced verdict which could be rendered under the circumstances.

## HARRIMAN SAYS FISH BROKE THE AGREEMENT

Man To Be Selected In Place of Grinnell Was Chosen By Majority.

NEW YORK, Oct. 19.—In answer to inquiries concerning the Illinois Central election, L. H. Harriman today said:

"There was no agreement or understanding, regarding the Illinois Central election, between Messrs. Fish, Peabody and myself other than that embodied in our signed agreement. It was not because Fish and ourselves did not agree upon the successor to Mr. Grinnell that we mutually and separately agreed to leave the selection of that successor to a majority of the directors, and that all parties, outside of the person or persons selected for the person or persons selected. That selection was made by a majority of the board of directors, pursuant to that agreement, but Mr. Fish, instead, selected his own nominee."

"It passes the limits of credulity, to suppose that we would give Mr. Fish the right to nullify the very agreement we were signing and to veto the selection to be made by a majority of the directors."

## ANOTHER BURGLARY IN BAKERSFIELD HAS STIRRED UP THE POLICE

BAKERSFIELD, Oct. 19.—Another burglary was committed in this city last night, when things entered the residence of Dr. J. F. Shuter and snatched several purses containing a small sum of money. The doctors were frightened away before they had completed their work, overlooking much valuable jewelry and a large sum of money. The officers contemplate making a general clean-up and ridding the town of the criminal element, which is supposed to be coming from San Francisco.

## NATURALIZATION FRAUDS HAVE BEEN PERPETRATED IN MINNESOTA DISTRICT

MINNEAPOLIS, Oct. 19.—Whole sale naturalization frauds in the Hennepin county district courts have been discovered. The evidence has been turned over to the United States authorities and sixty-two warrants have been issued by the United States marshal's office. Moses Winthrop, a well-known democratic politician, has already been arrested and bound over to await the action of the federal grand jury. It is said that large numbers of foreigners have perjured themselves as to the time they have been in this country, for the purpose of making voters of them.

## CANDIDATE LANGDON LEFT HIS HENCHMAN TO SPEAK AT STOCKTON

STOCKTON, Oct. 19.—Candidates William H. Langdon was killed to speak in Stockton tonight and the Independent League members had made arrangements for a big affair, but Langdon was called to San Francisco to organize a new grand jury and did not show up here. Albert Johnson of San Francisco addressed the meeting. Congressman McKimley spoke to a large Republican meeting here tonight and paid a high tribute to Gillett.

Spreckels' San Diego Block. SAN DIEGO, Oct. 19.—Excavation work for the new Union-Tribune block, which John D. Spreckels is erecting as a home for his newspapers, as well as for the general offices of the company, was commenced yesterday. The building, located at the corner of Third and D streets, will be 85 by 150 feet and six stories high, of reinforced concrete and one of the finest blocks in the city.

Prohibition Ordinance Sustained. SAN JOSE, Oct. 19.—Judge Welch of the Superior court, today sustained the validity of the ordinance recently passed by the trustees of the town of Los Gatos doing away with all saloons, a question brought up by the arrest of J. P. Mogensen, of the Lynden hotel, who was arrested for selling liquor subsequent to the adoption of the ordinance.

## COMING TO LOOK AT KEARNEY ESTATE

Regents of State University to Look at Magnificent Park Tomorrow.

In order to formulate plans for the use of Kearney park, the magnificent tract of land given to the University of California by the late M. Theo. Kearney, five regents of the state university, together with Prof. E. J. Wickson, dean of the college of agriculture in the state institution, and Acting Secretary of the Regents, Victor H. Henderson, will pay a visit to Fresno tomorrow. They will be the guests of Dr. Chester Rowell, who is a regent of the University of California, and will be shown the magnificent estate that is to be used for the benefit of agricultural studies in this state.

The party, comprising Regents T. J. Kirk, Judge Waymire, Senator D. F. Rich, E. W. Bohrmann and Colonel Danville, Professor Wickson and Acting Secretary Henderson, will arrive here Sunday morning on the Santa Fe. They will go to the Kearney estate in auto-

## THE FRESNO MORNING REPUBLICAN

## WEATHER

SAN FRANCISCO, Oct. 19.—Forecast: San Joaquin valley—Saturday, fair, cooler, light north wind. The trough of low pressure central over the Mississippi valley yesterday hastened rapidly eastward to the south Atlantic coast, causing general rains over the upper Mississippi valley, Southern Texas, the Lake region, the Ohio valley, the Appalachian range and the Atlantic slope, amounting to 1.01 inches at Pittsburg, 1.36 inches at Washington and 1.76 inches at Charleston. A crest of high pressure extends from the coast of Oregon and Washington eastward over the north Rocky mountains to the Mississippi river, accompanied by fair, cool weather. Severe frosts occurred at many points in the north Rocky mountain districts and the inter-mountain region. It is raining at Tacoma, and light rains have fallen over portions of Oregon, Washington and Montana. The pressure conditions on the Pacific slope indicate continued fair weather at Fresno and vicinity Saturday. J. D. HOLTON, Official in Charge.

## IN THE LODGE ROOM.

There is much complaint among the fraternal organizations that the skating rink craze is responsible for poorly attended lodge meetings. This week has been particularly crowded with other attractions and the lodges have been able to do little of importance on account of the lack of attendance.

Royal Neighbors. Sunrise Camp, Royal Neighbors, held a short business session last night. The camp has arranged to accept the invitation of Clovis Camp on Monday night and will go in a trolley to Clovis to participate in the apron and necktie social which is to be the entertainment of the evening. In a few weeks Sunrise Camp expects to reciprocate by inviting Clovis Camp to an entertainment which it will give.

Rathbone Sisters. Prosperity Temple, Rathbone Sisters, after a short business meeting last night prepared to receive guests for a pleasant social evening. Dancing and cards entertained the guests and members most delightfully and punch was served during the evening. The committee in charge of the evening's arrangements were: Miss Sophie Clino, Mrs. C. B. H. Mrs. Frances Sherman, Mrs. Bertha Kellogg and Leon Hart, Odd Fellows.

C. C. Anderson was given the patriarchal degree last night at Encampment No. 78, I. O. O. F. Aside from the degree work there was the usual routine business to be disposed of.

Foresters. At the meeting of the Foresters, Rainier City Court, last night, twelve new members were initiated and after the ceremonies were over an adjournment to an enjoyable social with refreshments and music, with also congratulatory remarks in a brother Forester who recently joined the ranks of benefactors. His name was Simon La Franks. An appropriate present was made by the lodge. The newly initiated members were: E. Chubot, J. Duque, Paul Dupinich, Jno. Willie, Martin Placardich, E. Nollie, Theo. Travina, J. Begovich, Jno. Otkovich, Tony Merenovich, Jno. B. Del Grande and Louis Del Mingo.

Dr. Parkhurst Is Summoned. NEW YORK, Oct. 19.—A subpoena was issued by Magistrate Mayo today calling on Dr. Charles H. Parkhurst, head of the Society for the Prevention of Vice, to appear in court and stand on October 24th. The summons was obtained by Deputy Police Commissioner Mulford. Dr. Parkhurst recently wrote a letter to Mayor McCallan complaining that the police had not closed many places of vice and crime in this city.

The party, comprising Regents T. J. Kirk, Judge Waymire, Senator D. F. Rich, E. W. Bohrmann and Colonel Danville, Professor Wickson and Acting Secretary Henderson, will arrive here Sunday morning on the Santa Fe. They will go to the Kearney estate in auto-

## DOUBLE STAMP DAY ALL DAY

When you stop and consider that the premium given in exchange for Gold Discount Stamps surpasses in every particular the premiums given elsewhere, then the importance of visiting this store today becomes imperative.

On every 10c purchase today you will receive two Gold Discount Stamps instead of one. If your purchases amount to \$15.00 you will receive 300 Gold Discount Stamps instead of the usual 150, and for as few as 300 stamps you have your choice of a great number of handsome premiums. Of course for greater numbers the value and choice of premiums is naturally larger still. Is this not a great incentive; a great temptation! to do your buying here. Besides we call your attention to the wonderful bargains on special sale in every department at unheard of low prices.

## PROBLEM OF A CURRENCY

American Bankers Association Shelves the Subject.

Report of Committee Was Referred After Scenes of Excitement.

ST. LOUIS, Oct. 19.—On this, the last day of the American Bankers' Association convention, an anticipation of a session that would be characterized by heated and possibly a contentious discussion over the currency question, there was a full attendance.

**Credit Currency.**  
The plan for a credit or clearance currency proposed by the bank legislative committee is as follows:  
First, that a currency commission of seven members be appointed by the president and confirmed by the senate; this commission to be non-partisan, and the controller of the currency to be a member.

Second, that a credit or clearance currency may be issued by any national bank or a majority of the national banks of any city upon application to the commission, in any amount not to exceed 50 per cent of the bond-secured circulation outstanding.

Third, that the necessity for a credit or clearance currency and the maximum time that it may remain outstanding shall be determined by the commission.

Fourth, that the banks issuing credit or clearance currency must pay a tax during the time fixed by the commission for its redemption at not less than 3 per cent per annum.

Fifth, the tax on the clearance circulation, after deducting the expenses of the commission and the management of this department, shall be deposited with the treasury of the United States as a fund known as "bank credit not circulation fund" until this fund equals 5 per cent of the bond-secured national bank circulation outstanding.

Sixth, before any bank can issue credit or clearance currency it must deposit with the treasury department or depositaries to be designated by the commission, approved securities of the bank as passed upon by the controller of the currency's department, to an amount of at least 10 per cent in excess of circulation to be issued.

Seventh, the credit or clearance currency shall be retired gradually at such times and in such manner as directed by the commission by depositing funds with the treasury department or at such depositaries as the commission may designate.

Eighth, the credit or clearance currency notes to be printed and an amount to be kept ready for emergency distribution by the government, equal in amount to 25 per cent of the bond-secured circulation outstanding. Still notes to be acceptable for the payment of all obligations, the same as bond-secured, bank circulation and as redeemable at any sub-treasury or designated depository.

Ninth, the notes shall be issued in denominations of \$5, \$10, \$20, \$50 and \$100 as desired, the expenses of printing and engraving to be paid by the banks taking them out.

Tenth, there shall be nothing on the notes designating the name or the number of the bank issuing them but they shall be numbered and registered with the treasury department and the commission so that they may be able to know at all times the amount of such notes any bank has outstanding.

**Chairman Overruled.**  
President Hamilton declared the motion out of order and that the resolution of George was before the convention. The chair's ruling was protested and on a viva voce vote it was not sustained.

Then C. B. Hart again made his motion to consider the proposed currency plan, section by section, and it was carried. Immediately another motion was carried to reconsider the vote and this was carried. The plan was then placed before the convention for general discussion. President Hamilton remarking that he felt that the delegates knew very little about parliamentary action and were solely actuated by a desire to talk on the currency question.

**Referred to Committee.**  
A resolution was adopted finally providing that the report be referred to a committee of fifteen appointed by the executive council, five members of which shall be the present executive committee, the other ten members to be selected with due reference to the national, state banks and the trust companies and said committee shall confer with the committee of the chamber of commerce of New York city and after careful investigation and study of plans submitted, shall cooperate with the proper congressional committees with the end in view of the enactment of a bill covering the subject.

**Banking in Cuba.**  
Edmund G. Vaughan, president of the National Bank of Cuba, at Havana, addressed the convention on "Banking in Cuba."

"At the close of the long succession of years for independence, Cuba was practically devastated, not only of her crops, horses and cattle, but also of her mills and machinery. She not only had nothing to sell, but it was necessary to buy from the world everything, even to her provisions. Today, her foreign commerce has reached more than \$200,000,000 per annum, with the balance of trade in her favor. In other words, she is producing for export in these few years more than \$100,000,000 per annum. The United States today is selling something less than 50 per cent of Cuba's imports and is buying over 90 per cent of her exports. The present reciprocity treaty gives the state a preferential of twenty, 20 per

cent less than other countries. This should enable the United States to increase her sales in that market. The reason Americans have not met with better success in Cuba is largely due to not studying the disposition of the people and their wants."

**Officers Elected.**  
The report of the nominating committee was then submitted and adopted unanimously.

The officers elected follows:

## ROALD AMUNDSEN'S VESSEL ARRIVED

Sloop Gjoa, on Which He Made Northwest Passage, Anchored In the Bay.

SAN FRANCISCO, Oct. 19.—The Norwegian sloop Gjoa, in which Captain Roald Amundsen traversed the Northwest Passage, arrived here this evening from the North and anchored off Sausalito. Captain Amundsen, who arrived here several days ago overland, met the Gjoa outside the Golden Gate and brought her into the harbor.

The Gjoa arrived early this morning off Cape Reyes, after weathering the worst storm of her trip from Nome. For forty-eight hours she was holed, unable to take advantage of the north-west storm blowing. She had to use out in a level position on the water. At 6 o'clock this morning the wind calmed down. As the barometer was falling, Lieutenant Hansen, her commander, took a line from a steam fishing vessel. Pilot Magnus Andersen boarded the Gjoa outside the Golden Gate and took her to anchor off Point Bonita.

Captain Amundsen, with a large party of friends, went out in the United States revenue cutter, Golden Gate, placed at Captain Amundsen's disposal by United States Collector of Customs Stratton, and boarded her at 2 p. m. After again leaving anchor, the Golden Gate took the Gjoa in tow to Sausalito, where she is at anchor, awaiting the official reception to Captain Amundsen and crew by the citizens of San Francisco.

## BUTTE BANK IS IN DIFFICULTIES

Its Washington, D. C., Branch Has Been Closed By Order of the Comptroller.

WASHINGTON, Oct. 19.—The Aetna Banking and Trust company branch at Washington, D. C., has been closed by direction of the acting comptroller of the currency, and Robert Lyons has been appointed receiver. This company is a branch of the Aetna Banking and Trust company of Butte, Mont., incorporated under the laws of West Virginia.

The assets and liabilities, according to the last statement, are \$123,942. Among the assets are \$95,247 in bonds, securities, claims, etc. The branch had \$42,271 in savings and \$38,098 in individual deposits and was liable to the head office at Butte for \$40,297.

**BUTTE, Mont., Oct. 19.**—The Aetna Banking and Trust company was organized about eight years ago, first as a building and loan association. A. R. Clements, formerly of Helena, was its first manager and also was the organizer of the corporation, and Frank K. Butte, now in Missouri, was its first cashier. The bank was incorporated under the laws of Virginia, with a capital stock of \$100,000.

Former Senator Lee Mantle, Henry Mueller, Charles B. Leonard and F. Augustus Heinze were among its first directors. Later the men mentioned sold their stock to Heinze, who had control for some time.

## DR. BROUWER HAS MANY GOOD FRIENDS

NEW YORK, Oct. 19.—Dr. Frank Brouwer, who was acquitted Wednesday of the charge of having poisoned his wife yesterday at his home in Toms River, N. J. They came to congratulate him on the outcome of his trial.

Dr. Brouwer, in an interview, said the trial had left him almost penniless. He said:

"If I gain a free man at last, happy am I, but I am not a cent. My content, however, is complete, because I have paid my debt and have cleared my name. I ask no man for help. I am strong and in the prime of life. I can work. Work never had any terrors for me. I still have the salaried position of a carpenter. So I do not think it will be very long before I am on my feet again."

## BANK RATES ARE RAISED

Bank of England Caused Big Financial Flurry.

To Protect Already Depleted Stocks of Gold—American Securities Suffer.

LONDON, Oct. 19.—The Bank of England raised its discount rate to 6 per cent this morning. Changes in the discount rate of the bank on any day since Thursday have been rare and far between, and not since Nov. 7, 1890, just before the Baring failure, has the rate been put to 6 per cent. The raise in American exchange, indicating a renewal of the demands for gold and the probability of large withdrawals of the metal for export, seemed to have contributed to the action taken by the Bank of England today.

The sum of \$5,000,000 in gold leaving the bank today is believed to be destined for Egypt, while financial circles anticipate very large purchases in behalf of the United States, irrespective of whether the rate of exchange does or does not render the transaction profitable. Reports are also current that the Imperial Bank of Germany is conducting a large bullion movement for Russia, and while Argentina has been the market for the purchase of gold, the multiplicity of the demands for the metal, it is pointed out, emphasized the necessity of protecting the already depleted reserves of the Bank of England. Consols for money declined 7/16 to 85 3/4 after the announcement of the increase in the bank rate.

American securities were depressed. Union Pacific lost 3/4, and the rest of the list 1/4 to 3/8 points, compared with yesterday's closing.

The increase in the discount rate was a complete surprise to the members of the stock exchange. Prices gave way sharply and at 2 o'clock consols showed a further loss of 1/2, being quoted at 85 3/4 at that hour. Other bill-edged securities declined sympathetically.

The American section continued to feel the depression and late losses ranged from 1/2 to 3/4 points.

As the directors of the bank separated yesterday without changing the rate of discount, it is assumed that they have since received information of unexpected impending gold withdrawals from the bank's reserve, which had steadily declined during the last two months.

The Board of Trade returns show the extent to which the United States absorbed this gold, the report setting forth that the American shipments were nearly \$60,000,000 for the first nine months of the present year against less than \$5,000,000 for each of the preceding years. It is this steady outflow which the increased bank rate seeks to check.

**NEW YORK, Oct. 19.**—The New York stock market opened weak and lower. The first quotation was in Union Pacific, which declined 1/2.

Other early declines were Amundsen, 3/4; Canadian Pacific, 3/4; Baltimore & Ohio, 1/2; St. Paul and Northern, 1/2; Amalgamated Copper, 1/2; Pennsylvania, 1/2; United States Steel preferred, 1/2; and Union Pacific, 1/2.

The opening of the market was confused and almost demoralized.

The pressure to sell seemed to come chiefly from firms which seemed to wish to dispose of stocks at any quotation above the London price. The first to suffer were the stocks in which speculation has been active recently—Union Pacific, Amalgamated Copper and Amundsen. Rumors were circulated here that the Bank of England's advance had been caused by threatened financial trouble in London, but there was no confirmation of these reports.

After the first selling movement there was a rally, but the better tone did not hold and towards 11 o'clock prices began to fall again, leading, which closed at 15 1/2. Yesterday, sold below 148.

Union Pacific lost 4 points, and others sold down sharply.

Call money was quoted at 6 per cent on the stock exchange at 11:15 a. m.

On the floor of the stock exchange the scenes throughout the first hour were unusually exciting. Traders who had felt inclined to take the bull side of the market because of the increased copper dividend immediately sold the active issue of the early trading hour, which was in Union Pacific, Reading, Copper and the Steel stocks. Commission houses sold heavily, largely for out-of-town accounts. There were hurried calls to meet impaired margins. The business of the first hour was within a couple of hundred thousand of yesterday's total operations.

Just before noon call money was quoted at 6 1/2 and some small loans were made at 7 per cent.

**BOSTON, Oct. 19.**—The weakness of the New York stock market, following the raise of the rate of discount to 6 per cent by the Bank of England, resulted in a sympathetic depression in the Boston market in the early trading today. Later the market recovered and steadied, but the rally did not last. The close of the day was a loss of 1/2 points from yesterday's closing, rallied to 270, but fell again to 269 1/2.

**PARIS, Oct. 19.**—Prices on the bourse were heavy today, owing to free selling on account of the unexpected increase of the Bank of England's rate from 5 to 6 per cent. Russian imperial 4s of 1904 closed at 72.65 and the Russian bonds of 1904 at 4.83.

**NEW ORLEANS, Oct. 19.**—A break in oil prices in the cotton market followed the severe break in Liverpool today.

**PHILADELPHIA, Oct. 19.**—Although opening quotations were slightly lower, the Philadelphia stock market suffered little from the depression in New York.

## REBATING SUITS IN SOUTHERN CALIFORNIA

U. S. District Attorney May Institute Proceedings Against Santa Fe and Los Angeles Firms.

LOS ANGELES, Oct. 19.—United States District Attorney Oscar Lawler this afternoon started the machinery of the United States government in an investigation of the Santa Fe railroad rebate situation in Southern California.

He would not discuss the situation, but it is known that Lawler had the United States marshals office send out subpoenas for certain Santa Fe railroad officials, local truck company officials and officials of local furniture concerns.

These officials are directed to appear before the United States grand jury with books and papers as exhibits bearing on freight rate charges, agreements and arrangements.

The alleged giving of rebates to dealers in furniture, farm implements and truck machinery will be the principal subject of the investigation. It is reported that other railroads than the Santa Fe will be drawn into the investigation before it is concluded.

District Attorney Lawler is known to have the backing of the department of justice at Washington in his efforts to uncover the illegal rebating. It is reported that he had recently asked for assistance from the attorney general's office at Washington in the prosecution and that it will likely be sent him soon. It is stated, unofficially, however, that Lawler has been supplied with certain evidence through Washington channels leading to establish his charges of illegal rebating and that he will not be compelled to rely entirely upon the evidence expected to be adduced before the grand jury.

## MINING CONGRESS CHOSE DIRECTORS

Next Meeting Will Be At Joplin, Mo.—Seattle Alaskan Exposition Supported.

DENVER, Oct. 19.—W. F. R. Mills of Denver was elected a director of the American Mining Congress to succeed J. Frank Watson of Portland, Oregon, whose term expires December 1, 1907. Mills, a member of the board at present, but announced that probably next year he would be in a position to accept such an appointment. The new board includes J. R. Richards, Boise, Idaho; C. M. Shannon, Clifton, Ariz.; J. W. Malcolmson, El Paso, Texas, and Thomas Ewing, San Francisco.

The congress voted to hold its meeting next year at Joplin, Mo., the vote being as follows: Joplin, 63; Douglas, Arizona, 22; Goldfield, Nev., 2.

Additional resolutions adopted today. Another resolution provides that the president appoint a committee of five to consider the relations between the producers and the smelter interests and report to the congress at its next session.

Resolutions were also adopted asking members of congress to support the movement for better highways and commending the proposed international exposition at Seattle, Wash., for making known to the world the mineral resources of the Alaska and Yukon territories in the United States and Canada and Pacific Northwest.

## NEW OFFICERS OF THE MINING CONGRESS

Committee to Raise \$50,000 to Bring Before Congress the Department of Mining.

DENVER, Oct. 19.—The ninth annual session of the American Mining Congress came to an end this afternoon with the announcement by the directors of the re-election of the old officers, as follows:

J. H. Richards, Boise, Idaho, president; Thomas Ewing, San Francisco, first vice president; J. H. Buckley of Rolla, Mo., second vice president; E. A. Colburn, Colorado Springs, third vice president; J. P. Callbreath, Jr., Denver, secretary.

President Richards stated that the board of directors had met and organized and had appointed the following committee to raise \$50,000 to bring before the congress of the United States the matter of establishing a national department of mines at mining: John Dorn Utah; Thomas Ewing, California; E. A. Colburn, Colorado; J. W. E. Dorsey, Nebraska; and Dr. E. R. Buckley, Missouri.

Tonight a large number of the members of the congress left for Cripple Creek, where tomorrow will be spent in examining the mines of that district.

## MURPHY AND GRAND JURY

Tammany's Charges Are Being Investigated.

Witnesses Summoned Say They Had No Proof to Furnish That Body.

NEW YORK, Oct. 19.—An investigation of the charges made yesterday by Charles F. Murphy, leader of Tammany Hall, that attempts had been made by the managers of the Independent League in this city to secure money from Democratic nominees for congress, senate and assembly, was begun before the grand jury today.

Murphy and Francis F. Shober, independence League and Democratic candidate for congress in the Seventh district, were admitted to the grand jury room. Murphy was accompanied by City Magistrate Moss. Murphy remained in the grand jury room about fifteen minutes and a few minutes after he emerged it was said that three additional subpoenas had been issued as a result of his testimony. It was learned on what is considered good authority that the three men subpoenaed are Congressman Joseph E. Goulden, William Astor Chandler and Joseph Prendergast.

When Shober came out of the grand jury room he said:

"Mr. Jerome asked me if I knew anything about the demands made upon the candidates to withdraw and offers made to them to do so. I told him that I did not know anything personally about it, but that what I had heard had been through rumors."

Judge Rosinsky, who went before the grand jury immediately after Shober, remained only a few minutes. He said the grand jury asked him if he had at any time made any campaign contributions or offered any money for his endorsement by the Independent League. He told the grand jury that he had not. The endorsement came to him unsolicited.

Shober, some time after he had left the grand jury room, said that a certain Tammany candidate came to him and asked him how he could get an endorsement of his candidacy by the independence League. Shober said the man told him he was willing to pay all the expenses of getting out the petition. The candidate was told by Shober that nothing could be done in the matter as the independence League had already named its own candidates and had no need of him.

Murphy said today that he had nothing to add to his charges of yesterday. He said his charges would not have the slightest effect on William R. Hearst's candidacy.

"Tammany Hall will support Hearst loyally," said Murphy.

While the heads of the Republican and Democratic independence League tickets continued their campaign up state today, several meetings in their interest were held in this city. The interest, from a Republican standpoint, centered in the Manhattan meeting, at which the principal address was made by Joseph G. Cannon, speaker of the House of Representatives.

Charles E. Hughes, Republican candidate for governor, started from Albany this morning and working west, included the Democratic stronghold of Schenectady county, finishing the day with a speech at Oneonta tonight.

William R. Hearst, the Democratic and independence League candidate, reached Saratoga from Ogdenburg today. He spent the day quietly but addressed a big meeting at Saratoga tonight.

**SARATOGA, N. Y., Oct. 19.**—Leslie Stuyvesant Chandler, Democratic and Independent League candidate for lieutenant-governor, said today regarding the report that he and his father had contributed largely to the independence League and Democratic campaign fund:

"I am glad to see this opportunity to nail another cheap campaign lie. I was not asked by anyone, directly or indirectly, for any promise, subscription or pledge before I received the nomination from the independence League or Democratic party. Last week I sent a check for \$500 to the treasurer of the league, and a check for the same amount to the treasurer of the Democratic state committee. That is all I or anyone acting for me, has subscribed, directly or indirectly, to any person or party."

## CHRISTIAN ENDEAVOR

International Treasurer Shaw Visits Fresno.

Local Societies Gathered To Meet Him and Hear His Address.

Business principles is dominating the Christian faith was the theme last evening at the gathering of members of the Christian Endeavor Society of this county to meet William Shaw, treasurer of the International Society of Christian Endeavor. Mr. Shaw, one of the many men engaged in evangelistic work, is one that impresses people that meet him with an altogether worldly capacity for going at things and accomplishing his purposes, which, not understanding the spiritual object, that at promoting the Christian life and character.

The traveling official arrived in this city about the middle of the afternoon in company with State President Paul C. Brown and State Secretary Edward McKinley, coming from the north. He was met by a number of the local leaders and entertained until the time of the evening meeting when a large crowd gathered in the auditorium of the First Presbyterian church to listen to Mr. Shaw.

After Dr. Francis E. Clark, Mr. Shaw is the object of the officers of the Fresno Society of Christian Endeavor, which has had such an enormous growth and has exerted such influence during the quarter of a century since it was started. The tour that he is now making in the West, largely in the interest of the next international convention, which is to take place in Seattle next July, has occasioned special notice wherever he has gone.

This coming gathering took an evening. He had just come from last and spoke of the great growth of the Northwest and the interest that this would have for the delegates that would come there from all parts of the world.

Another matter that the speaker laid special stress upon was the gathering of funds for what is known as the Twentieth Century Memorial, a building to be erected in Boston as soon as possible, to be used as the headquarters of the organization. Every branch of the international society is participating in this movement, and the speaker made particular reference to support that is being given by local societies in different large fields.

Mr. Shaw closed by speaking somewhat briefly of the progress that has been made by the Christian Endeavor Society since it was organized at Portland, Maine, with fifty-two members. He was followed by State President Brown, who discussed the state work, and the relation of the local societies to it. Secretary McKinley spoke on a number of subjects, particularly the importance of wearing the Christian Endeavor pin.

After the speaking was concluded a

half hour was spent by Mr. Shaw in answering questions about various phases of Endeavor work. He spoke of the importance of the intimate societies, the "Quiet Hour," and the missionary work. With regard to the committee business of the local societies, he said that the pastor and the president of the society should see that it was kept up in a business-like way, and that if chairman of committees did not look after it, they should give way to others who would.

Mr. Shaw left for Los Angeles on the 29th, and a party went down to the station to see him off.

### AT THE BARTON.

Lawrence Company's Concluding Bills—Georgia Minstrels Sunday.

Demetrius Thompson and George W. Ryder's latest success, "Our New Minister," will be presented by the Del S. Lawrence company at the Barton again this afternoon for the matinee. Tonight the Lawrence company will present the great Eastern success, "Texas Ranger." The play is one of absorbing interest. The story is a beautiful one, the comedy scenes being excellent and the emotional scenes very touching. The first act takes place in Boston and the second act in the past, the Texas Ranger. The scenes between John Rosleigh and his Indian wife are very beautiful. Mr. Lawrence will appear as the Texas Ranger, while Miss Thompson will essay the role of White Fawn, the Indian girl. The play had a long run in the East and is one of the best in the Lawrence repertoire. The scenery for the production was especially painted by Owen Thiel. Seats are on sale all day, matinee prices 10 and 20 cents; evening prices 10, 20 and 30 cents.

**Georgia Minstrels.** In order to appreciate the importance of the claims of the managers of Richards & Pringle's famous Georgia Minstrels, that they have the largest and best-equipped minstrel show ever given by negro talent, a visit to the Barton tomorrow night will convince the most critical judges that they have refuted all former seasons in the way of novelty. Ever on the alert to grasp opportunities they have brought together an entire new company from the property man up to the leading artists, only retaining from former seasons the famous Clarence Powell. All others are new faces and a program of rare excellence is promised. The street parade will be at 2 o'clock. Seats are on sale all day, prices 25, 50 and 75 cents.

### FRESNO SKATER NEARLY BEATS WORLD'S RECORD

Smith-Goldworth Contest Results In Hot Victory For Former.

The finish of the Smith-Goldworth skating race at the Recreation Park last night resulted in a victory for Smith, owing principally to a disastrous fall by Goldworth in the first lap. Smith made the run of a mile against time in the remarkable time of 2:50. The world's record is 2:42, so this means that the Fresnoan came close upon the heels of the best yet. His prowess was regarded with considerable pride by his backers and they took to him big things from his future efforts in this line.

## HIGH SCHOOL SENATE DEBATES CANAL

The regular weekly meeting of the Fresno high school senate was held last night at 8 o'clock by President Hamner of Massachusetts. Under the head of orders of the day the following question was debated: "Resolved, that the city of Fresno go under bonded indebtedness to build a drainage canal from Dry creek to the San Joaquin river." Angels of Iowa and Kansas of Connecticut upheld the affirmative, while Broadwell of Nebraska and Bracker of Indiana spoke on the negative. The debate was thrown open to the house. Liberty of Wyoming and Hopkins of Louisiana spoke on the negative. The question was carried by a vote of 11 to 5. This result was called forth in a great measure by an excellent speech made by Mr. Brady.

Next Friday the senate will resolve itself into the Republican National convention for the purpose of nominating the president and vice president of the United States and adopting the Republican platform.

## AGED AND AILING. HE FALLS AND DIES

Charles Boyd, Old Resident of Coalinga, Dies of Asthma While Riding Home.

Charles Boyd, an aged and respected resident of Coalinga, fell from his horse yesterday morning on the Coalinga road in a convulsive fit of coughing from asthma, and dropped into the road, where he died a few minutes later. According to the report of many reputable citizens the story that he was intoxicated had absolutely no foundation, as he was known to be ailing for many years and was a man of temperate habits. When he fell from his horse, the horse went on home to the ranch, about three miles distant, and it was by this that the plight of his master was learned. Relatives went in search of the old man, and found him lying dead in the road. Life went out about one hour before their arrival.

The coroner, Dr. Cowan, was notified and an investigation was held, resulting in the decision that death came by natural causes. The deceased leaves a wife, to whom he had been married but a short time.

The dead man, who was 61 years old, served in the Civil War, seeing military service in the Confederate army in the Twenty-fourth Maryland regiment. After the war he settled down to agricultural pursuits but engaged in various vocations in the years that followed. He leaves, besides his young wife, two daughters by a former marriage. One of them lives in Arizona, while the second is in Humboldt county in this state.

The funeral arrangements have not been completed.

**Squires for Panama Minister.** WASHINGTON, Oct. 29.—Herbert G. Squires, former minister to Cuba, is being considered by the president for appointment as minister to Panama. It is believed he will accept and that the announcement will be made in a short time.

## ANDREWS FOR ADMINISTRATOR

Republican Candidate Well Qualified for Position.

Says He Is Not Candidate of Any Particular Law Firm.

In George R. Andrews, Republican candidate for public administrator, the voters of Fresno county have elected to a man of unusual ability and life in every way for the important office for which he is a candidate.

Mr. Andrews had been nominated by the Republican convention to fill the race for public administrator. He wrote to L. W. Stonner, general superintendent of the Postal company, and the letter that he received coming as it does from one who has been connected with him for many years in a business way, is the best sort of a recommendation that can be offered. It reads:

"San Francisco, California, October 11, 1908. Mr. George R. Andrews, Fresno, Fresno, California. Referring to your letter of September 24th in which you state your intention of running for public administrator, I have to say that if you succeed in getting the office, the people of Fresno county would be fortunate in their choice.

"We should be sorry to lose you, but would be more than pleased to see you elected to a position of greater personal trust and responsibility.

"Yours very truly,

"L. W. STONNER, Gen. Supt."

**GAME TO AID LECTURE CLUB**

A week from today the baseball team will give a benefit game for the building fund of the Lecture Club. The ladies of the lecture club are raising a fund to erect a handsome clubhouse on North K street and the game will be given to aid that fund. Seattle will be here next week and a good game of ball is expected. It is hoped that, by that time, permission to use Jimmy Whalen will have been secured from the New York Americans and if so, "Chinney der Whale" will be on the firing line for the Baisn Eaters.

should he be selected to fill that office. Mr. Andrews owns property here, both in the city and country. Mr. Andrews says that if elected to fill the office of public administrator he will bring all his executive ability and clear business sense into the performance of his duties. He says also that he is not in the race for any particular law firm, and has not promised the business of the office to any attorney.

After Mr. Andrews had been nominated by the Republican convention to fill the race for public administrator he wrote to L. W.
